=====

All,

Thank you to all those who have volunteered to assist with the records recovery efforts currently underway in the Moonachie warehouse. This warehouse, which contains closed case files from the NY office, received extensive flooding due to Hurricane Sandy. At this time, we have several employees on-site and several more in standby status, ready to deploy over the next few days. To minimize further damage to the records until all recovery efforts can be completed, the warehouse is being kept at a cool temperature. As such, the personnel in standby status have been requested to dress appropriately for the warehouse environment, which includes jeans. As a result, you may see some folks in jeans today and in the coming days. Those in a standby status to deploy to NJ are permitted to wear jeans. Thank you again for your all of your hard work and commitment to the FBI and RMD's mission. We have a great division of dedicated people who are willing to come to others' assistance. Thank you.

Michelle
